PERSONAL

I have been grateful to call Copenhagen my second home, where I have had the enriching opportunities of short-term study, work, and even love. After moving back and forth across the pond and around the Copenhagen area, I now live with my husband and our two children in charming Allerød.

Both friends and colleagues describe me as an open-minded person with a positive attitude, a creative type who enjoys collaborating with people, and someone who can adapt to challenging situations effortlessly.

Outside of work I enjoy playing tennis, cycling, sailing, mushroom hunting and exploring new foods (especially Asian). I like to be inspired by museums, exhibitions, traveling, ceramic classes, and painting. I also enjoy making visuals or illustrations and like to use sweet or exciting moments from my real-life experiences as inspiration.
